*Fine Residential and Commercial Cabinetry*

### BASIC CARE TIPS

- Wipe up spills, splatters and water spots as they occur. Keep the cabinets dry.
- Clean as needed with a soft, lint-free cloth. Use a mild cleaner such as Plush Furniture Cleaner & Restorer.
- Avoid using a dishcloth or sponge. It could contain remnants of grease or detergents.
- Do not use products with bleach, ammonia or abrasive additives.
- Never use scouring pads, steel wool or powdered cleaners.
- Do not allow oven cleaners or similar products to come in contact with wood finishes
- Avoid placing small appliances where heat or steam is directed onto cabinet surfaces.
- Avoid draping damp cloths or dishtowels over cabinet doors. Moisture can cause permanent damage to the finish
- Be careful not to get water on your cabinets when wet mopping your floors.
- All wood finishes require at least 30 days of curing so the material can achieve its full performance properties.
- Plush Furniture Polish & Restorer is available for purchase through our office.
